

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Original) Apparatus for refurbishing used cores for rolls of material, which apparatus comprises:

stripper means for stripping remaining material from the used cores;

feed means for feeding the used cores to the stripper means;

cleaning means for cleaning the used cores after they have been treated by the stripper means; and

adhesive applicator means for applying adhesive to the used cores whereby the used cores are then ready for re-use as refurbished cores for new rolls of material.

2. (Original) Apparatus according to claim 1 and including sensor means for measuring and recording the length of the material stripped from each used core.

3. (Original) Apparatus according to claim 2 in which the sensor means measures in metric units.

4. (Currently Amended) Apparatus according to ~~any one of the preceding claims~~ claim 1 and including a waste bin or a pallet for receiving the material stripped from each used core.

5. (Currently Amended) Apparatus according to ~~any one of the preceding claims~~ claim 1 and including tag reader means for reading identity tags, there being one identity tag on each used core.

6. (Original) Apparatus according to claim 5 in which the identity tags are radio frequency identity tags, and in which the tag reader means is adapted to read the radio frequency identity tags.

7. (Currently Amended) Apparatus according to ~~any one of the preceding claims~~ claim 1 in which the stripper means comprises rollers for rotating the used cores, end-obtaining means for obtaining a free end of the remaining material on each used core, and pull means for pulling the remaining material off each used core.

8. (Original) Apparatus according to claim 7 in which the rollers for rotating the coil are a pair of reversible drive rollers.

9. (Currently Amended) Apparatus according to claim 7 ~~or claim 8~~ in which the end-obtaining means is a roller.

10. (Original) Apparatus according to claim 9 in which the roller is a brush roller.

11. (Currently Amended) Apparatus according to ~~any one of the preceding claims~~ claim 1 in which the feed means is a conveyor feed means.

12. (Currently Amended) Apparatus according to ~~any one of the preceding claims~~ claim 1 in which the cleaning means is a roller cleaning means.

13. (Original) Apparatus according to claim 12 in which the roller cleaning means has at least one scrubbing roller, and a wash station.

14. (Original) Apparatus according to claim 13 in which there are more than one of the scrubbing rollers, and in which the wash station is a hot wash station.

15. (Currently Amended) Apparatus according to claim 13 ~~or claim 14~~ in which the wash station includes a container for containing cleaning water.

16. (Currently Amended) Apparatus according to ~~any one of the preceding claims~~ claim 1 in which the adhesive applicator means comprises at least one roller for applying the adhesive.

17. (Original) Apparatus according to claim 16 in which there are two of the rollers for applying the adhesive.

18. (Currently Amended) Apparatus according to claim 16 ~~or claim 17~~ and including a container for containing the adhesive.
